Quality Policy

Infomatics Corp is wholly committed to our quality policy which is in place to ensure our services fully meet the requirements of our customers at all times. **Infomatics Corp's** goal is to be the best in class IT solutions provider it's customers in United States. Infomatics prides itself in having the best software development process and its expertise in the cutting-edge technologies. To achieve this goal, we are committed to implementing, maintaining and continually assessing operational systems and talent acquisition processes.

Infomatics Corp firmly believes in the concept of customer and supplier working together in pursuing this policy and in continually striving for improvements in service quality.

The Quality Policy is based on 5 fundamental principles:

1. Be the Client's trusted partner for software solutions.
2. Agile software development for speed.
3. Attract, develop and retain the best talent in the market.
4. Foster Emerging technologies.
5. Set a global footprint.
6. Be Socially responsible.

Within this policy we are committed to operating our Company under the disciplines and control of a Quality Management System.

To ensure that the policy is successfully implemented, staff are responsible for identifying customer requirements, and ensuring that the correct procedures are followed to meet those requirements.

Objectives needed to ensure that the requirements of this policy are met and that continual improvement is maintained in line with the spirit of the policy, will be set, determined and monitored at Management Review.

Shahil Shariff
